- (1) Piece Electronic Equipment
 Estimated weight: 1,460 lbs.
 150 cube

It is requested that arrangements be made with a transfer company to ship the above piece of electronic equipment which is now on lease to Nat'l. Bureau of Standards and located at their installation, to the manufacturer in California.

The negotiations should provide for the furnishing of a special pallet such as Lyon Van Lines Electro Pallet, the actual mounting of the equipment, and its transportation. Please coordinate with NPIC/Log Ext. 2295, so the interested parties can be notified when the equipment is to be picked up and so that a technical representative can be present to supervise loading and unloading.
